

Assignment 1: Initialize a new Git Repository in a Directory of your choice. Add a simple text file to the repository and make the first commit.

Step 1 : Initialize a Git repository.

git init

Step 2 : Configure your Git username.

git config --local user.name "Sai Prakash Reddy Challa"

Step 3 : Configure your Git email.

git config --local user.email "saiprakashchalla@gmail.com"

Step 4 : Add the remote origin to your local repository.

git remote add origin

<https://gitlab.com/SaiPrakashReddyChalla/wipro-training-material.git>

Step 5 : Add the file to the staging area.

git add file.txt

Step 6 : Make the first commit.

git commit -m "First Commit"

Step 7 : Push your changes to the remote repository.

git push -u origin main
